Stressed and overwhelmed during exam preparation.

PS-2	A university student who wants to revise efficiently.	Generate AI summaries, flashcards, and quizzes from my study materials.	Creating revision resources manually takes too much time and effort. PS-3	A student aiming to improve academic performance.	Track my learning progress and identify weak topics for focused study.	I cannot easily monitor my progress or determine which subjects need more attention.	Traditional study methods do not provide personalized analytics or performance insights.	Uncertain about my exam readiness and lacking confidence.
